

## **Get started – towards successful delivery of the new specification (first teaching from September 2009)**

### **Aimed at**

All new and experienced teachers, Heads of Department and Curriculum Managers.

### **Overview**

This **full day course** is designed to give you a sound understanding of the new OCR specification. The sessions will include an introduction to the structure and content of the new specification in preparation for delivery. It will:

- Consider the assessment of candidates with the review of sample assessment materials
- Offer advice on preparing candidates for the external assessment
- Consider the collation of appropriate evidence for portfolio building
- Review the support and resources available from OCR
- Enable you to network and share ideas for best practice.

*Please read the subject specification before attending the course.*

***Note: although we endeavour to distinguish between the Get ready and Get started events, there will be some similarity to the half day Get ready sessions that have already taken place. However, this full day course will look at the new specification in more depth, with emphasis on first delivery. There may be some similarity in the materials between the Get ready/Get started courses but the latter will have approved, rather than draft, documentation.***
